

Atlantic Rosé

The fine structured nectar of peach blossom and aromatic orange with bright minerality that captures the joie de vivre of summer.

The perfect wine to share among friends on a hot summer's day or as golden hour strikes just before sunset.

Pairing/serving suggestion

A great accompaniment to lighter-styled foods such as sushi, salads and tapas. Serve chilled.

Vinification

Created using light skin contact and gentle pressing to preserve the delicate characteristics of the grapes. Primarily Mourvèdre, with a slight addition of Muscat d'Alexandrie to elevate the fruity characteristics and round off the wine.
